

# So your lake has issues. Now what?

April 26, 2017 \* 6:30-8:30 pm

Johnston Senior Center

1291 Hartford Avenue \* Johnston, RI \* 02919

Lakes are the jewels of our landscapes. But sometimes our green lakes make us blue. What can we do to fix not just the symptoms, but the causes too?

Join us and lake association members from around Rhode Island as we learn how lakes function and discuss how we all can work to protect them.

Hosted by Save The Lakes (STL), this lake association forum will feature staff from the Rhode Island Department of Environmental Management's Office of Water Resources and Fish and Wildlife Division who will update us about their activities, answer your questions, and address our issues.

Following, Project Scientist and Group Manager at ESS Group, Inc., Matt Ladewig will answer the question **So your lake has issues. Now what?**

By sharing our local knowledge and talent, STL hopes this forum will answer the questions you've had about your lake! So join us for some fun, education and refreshments as we learn more about our lakes and how we can work together to keep them gleaming.
